

Sacred Heart Primary School, Thornlie

Code of Conduct

Purpose

The purpose of the Code of Conduct is to describe minimum standards of conduct in all behaviour and decision making to ensure the safety and well-being of students.

Application

The Code applies to staff, students, volunteers, parents and guardians as applicable. The term 'parents' includes guardians.

Introduction

We acknowledge the inherent vulnerability of the students in our care.

We recognise that the safety and well-being of students depends upon our vigilance and diligence and the vigilance and diligence of all adults.

The Code does not give you detailed professional advice on specific behaviour. Rather, it describes the minimum requirements expected of us.

The Guidelines are illustrative and not an exhaustive list of the behaviours covered by the Code.

If our behaviour varies from the standards described in this Code and Guidelines, we should be prepared to explain and justify our decisions and actions.

While mandatory language such as 'must', 'shall' and 'will' is not used throughout the Code, there is a presumption the conduct described is mandatory and therefore not discretionary.

The Principal expects us to conduct yourself personally and professionally in a way that maintains public trust and confidence in our school and the Church.

We have a responsibility to students and their family, other members of the school community and the wider community to provide and support safe and competent education and care of students.

We will do our best to support other members of the school community to comply with the Code.

In cases of conflict between parts of the Code, between the Code and other school policies, or in any decision making choices, we give priority to the outcome that will be in the best interests of the safety and well-being of the child.

Breaches

Breaches of the Code must be notified to the Principal and it is a breach of the Code not to do so.

A breach of the Code may constitute a failure to follow a lawful direction from the Principal and therefore the Principal will have the discretion as to what action to take, which may include counselling, professional development or sanctions under any agreement between you and the

Principal. If you are a parent, volunteer or visitor, the Principal may take such action as is appropriate in your circumstances to maintain the safety and well-being of students.

The Principal must notify the appropriate authorities of any breach of the Code that was grooming behaviour: i.e. deliberately undertaken with the aim of befriending and establishing an emotional connection with a student, to lower the student's inhibitions in preparation for engaging in sexual activity with the student. Examples include:

- developing relationships that could be seen as favouritism (for example, the offering of gifts or special treatment for specific students)
- being alone with a student in circumstances where you are unseen or unlikely to be randomly interrupted
- initiating unnecessary physical contact with students or doing things of a personal nature that a student can do for themselves, such as toileting or changing clothes
- engaging in personal disclosures (including personal contact details), or exchanges containing sexual content with or in the presence of a student
- organising contact with a student or their family outside of school without the Principal's knowledge and/or consent (e.g. tutoring, sport coaching).
- having any non-curriculum related online contact with a student (including via digital media) or their family
- using any personal digital media account to contact students or their family
- photographing or videoing a student without the consent of the parent
- being in the presence of a student whilst under the influence of alcohol or non-medically prescribed drugs or offering either to a student

The Principal must notify the appropriate authorities of any breach of the Code that was sexual abuse of a child: i.e. sexual behaviour in circumstances where:

- the student is the subject of bribery, coercion, a threat, exploitation or violence;
- the student has less power than another person involved in the behaviour; or
- there is a significant disparity in the developmental function or maturity of the child and another person involved in the behaviour.

It is our responsibility to maintain the competence necessary to fulfil our role. Maintenance of competence includes participation in ongoing professional development to maintain and improve knowledge, skills and attitudes relevant to our role in your school.
5. We must also notify the Principal as soon as possible if we find yourself in such a position of ambiguity so that we can explain the circumstances.

We recognise that the power relativities between us and a student can be significant, particularly where the student is very young, has a disability, a difficult family background, has cultural differences, or experiencing emotional turmoil. This vulnerability creates a power differential in our relationship with students that must be recognised and managed with care.

7. We do not engage in any behaviour with a student that a reasonable person could interpret as creating an opportunity to engage in emotional, physical or sexual intimacy with a student.
8. We recognise that the power imbalance between us and students means that the onus is on us to avoid any ambiguity or misunderstanding by a student or third party about our intent in our behaviour towards them.
9. We understand that the power imbalance between us and students means a student is unable to give their consent to engaging in emotional, physical or sexual intimacy with us, regardless of the legal age of consent, or the student's age or maturity. We must therefore not seek nor rely on such express or implied consent from a student to engage in an intimate relationship.
10. We understand that the power imbalance between us and students may continue to influence students' choices beyond the date when they cease to be students at our school.
